### Ports and the Coastal Environment

Discussion of Issues
Regional SG Meeting
March 13, 2007

### Air Quality

- Proximity to urban areas
- Common sources: Marine vessels, tugboats, land-based cargo-handling equipment, trucks, and trains
- Main concerns: PM, NOx, and Sox
- LA/LB have plan to reduce emissions below 2001 levels, even as volume grows
  - vessel speed reduction incentives and portmandated fuel requirements
  - eliminate "dirty" diesel trucks
  - shore-side electricity

Air Quality Index (AQI) Values	Levels of Health Concern
When the AQI is in this range:	air quality conditions are:
0 to 50	Good
51 to 100	Moderate
101 to 150	Unhealthy for Sensitive Groups
151 to 200	Unhealthy
201 to 300	Very Unhealthy
301 to 500	Hazardous

#### Air Quality

- Port of Houston tackling issue
  - ultra-low and low emission vehicles made significant reductions in emissions
  - Established EMS & received IMO 14001 Certification

Air Quality Index (AQI) Values	Levels of Health Concern
When the AQI is in this range:	air quality conditions are:
0 to 50	Good
51 to 100	Moderate
101 to 150	Unhealthy for Sensitive Groups
151 to 200	Unhealthy
201 to 300	Very Unhealthy
301 to 500	Hazardous

## Competing Demands for the Waterfront

- Many ports require physical expansion
- Brownfields?
- Many communities would rather have stores and restaurants
- Largest importers?
  - Wal-Mart, Target, Home Depot, Sears, Dole
- Real cost to the economy if ports bog down

# Sustainability--Wide Range of Issues

### Sustainability

- Increase in costs affect competitiveness
- Must focus on efficiency—demand quality
- Environment
  - Management of estuaries
  - All forms of pollution at ports
  - Managing ecology and habitat
  - Management of chemicals in or near water environments
  - Oil discharge prevention and response
  - Dredging and sediment removal including its disposal
  - Management of ports and marinas and vessels
  - Management of waste from vessels
  - Loading and unloading of ships
  - Ballast water and hull fouling and cleaning.
  - Safety of ships and the people living around harbors

### Sustainability

- Vessel Safety
  - Collisions are disastrous
